## Declaration of conformance of customer installed pipework

In order to provide a safe potable drinking water via the installation of a plumbed in water cooler, a water fountain or a hot water boiler, it is essential that all components and connections to the mains water supply are suitable and approved for drinking water.

So that we can be confident that our installations meet the strict requirements for drinking water please fill in the areas below and then sign and date.

I confirm that the pipework installed ready for the connection of a mains fed water dispenser has:

- Been installed to a safe potable water supply (mains water)
- Been installed using materials approved for contact with drinking water
- Been installed by a competent / suitably qualified person in accordance with current legislation

Company:

Pipework installed by:

Signature:

Date:

Once completed please scan and return to [info@norfolkwater.co.uk](mailto:info@norfolkwater.co.uk) or retain to hand to our installation engineer.

**Please note that we may not be able to install your water cooler if this has not been completed.**
